State Rankings, 1989 has been compiled by the North Carolina State Data Center, Management and Information Services Section. Many of the data series used in this report were extracted from the Statistical Abstract of the United States, 108th edition, 1988, published by the U.S. Department of Commerce, Bureau of the Census. The following contributors are gratefully acknowledged for providing data for this publication: American Association for Protecting Children, American Bar Foundation, American Council of Life Insurance, American Gas Association, American Hospital Association, American Medical Association, F.W. Dodge Division of McGraw-Hill Information Systems, The Economic Analysis Department of Dun and Bradstreet Corporation, Elections Research Center, Industrial Relations and Information Services, Market Statistics, National Education Association, and U.S. Travel Data Center.

Several data series have been extracted from copyright publications with permission of the publisher. Permission for further use of the copyright material should be obtained directly from the copyright owner.

Comments and suggestions for future editions of this publication are encouraged and should be directed to William Scheideler, Office of State Budget and Management, (919) 733-7061.

Preface

Increasing the awareness of statistical information available on North Carolina is an important goal of the Office of State Budget and Management. Statistical data provide a foundation upon which rest decisions for budgeting, planning, policy-making, and evaluation.

It is often critical in determining policy and planning to be able to gauge how North Carolina compares nationally, with neighboring states, and with the average of all states on particular measures. At a minimum, a glance at how the state ranks among other states will confirm what planners and policy-makers already know, suggest additional directions for research, or identify areas that demand further analytical attention.

State Rankings is intended as a reference document which will serve as a snapshot of the state and a tool for comparisons with other states in subject areas for which data are available. The State Data Center in the Office of State Budget and Management has identified the 453 series printed here as data that are accessible for most states and that cover topics within broad categories such as agriculture, income, government, transportation, population, health, education, social services, justice, environment, energy, industry, and employment. The Data Center has located sources and assembled these data for the benefit of general data users and, in many instances, has made conversions to per capita measures to assist the user. The average value over all states has been calculated for many series.

The first edition of State Rankings was well received, and users provided suggestions for additional series. This second edition represents a fifty percent increase in number of data items over the first. User comments will be welcomed. This office is also interested in tracking the uses of these data; users are encouraged to comment directly to the State Data Center.

Introduction

State planners and policy makers, budget analysts and researchers routinely need to know how North Carolina compares with other states in a variety of social, demographic, and economic measures. As a clearinghouse and registry for state statistics, the Office of State Budget and Management often fields questions on how the state ranks. There are several sources of ranked data from public and private agencies, but none have comprehensive coverage of the many subject areas needed by the general data user community. This second edition of State Rankings is intended as a statistical resource in two ways: to provide a broad range of ranked data series to aid in comparisons of North Carolina with other states, and to provide a reference for each series so that users may seek updates from the original source or address questions concerning data interpretation to the proper contact.

The data series which are ranked in this publication were chosen based on typical questions asked of the State Data Center and on the availability of statistics. Except for the inclusion of some series that are North Carolina-specific, such as number of turkeys raised or amount of tobacco produced, there was no attempt to select series for which the state ranked very high or very low. Indeed, the goal was to seek available data that would provide an overview of the state in comparison to the nation and to other states across a broad spectrum of measures. In that respect, it should be useful to researchers from other states and the District of Columbia, as well.

Many values have been divided by resident population to convert the measures to a per capita amount for ease in comparison with other states. A glossary has been prepared to provide definitions of the basic terms and concepts for which data were compiled. The twelve major subject categories are those used for other publications and classification systems in the Office of State Budget and Management, including the North Carolina State Government Statistical Abstract, the North Carolina State Government Statistical Register, and LINC ("Log Into North Carolina", the on-line database of widely used data series).

Due to the length of time required to assemble this document, some of the series may be updated soon after, or even prior to, publication. Users should check with original sources for more up to date information.

User Notes

In the following tables, the states are listed alphabetically and are ranked in descending order for each series. States that are tied share the same rank number. High ranks do not necessarily indicate a preferred position. Values or totals are shown for each state, the District of Columbia, and the United States as a whole. The District of Columbia has been treated as a state when data were available for it. A mean has been calculated for each series to give the data user a reference point for gauging North Carolina's standing. Exceptions to these conventions are noted in the footnotes for each section. Means were not calculated for series when data were missing for any area other than the District of Columbia, Alaska, and Hawaii; nor were they calculated for series that represented rates.

Footnotes are arranged by section but not necessarily by numerical order of the data series due to the fact that the same note may apply to several series, in which case the note was listed only once.

Data may be missing for a variety of reasons and this status is indicated by the symbol ".". Missing data are to be distinguished from a value of zero. True zeros are ranked, but missing data are omitted from the ranking procedure. To determine the reason for missing data in a particular series, check the footnotes.

The sum of states may not be the same as the national value for a variety of reasons, including independent ways of estimating states and the nation, rounding, inclusion of other geographical areas in the national figures, and missing data for some states.

Occasionally, different ranks will appear for states with an equivalent measure. This is due to the ranks having been determined prior to rounding the data.

Unless otherwise noted, data series refer to calendar year.

For data presented on a per capita basis, the population figures used as denominators were typically estimates as of July 1 of non census years and as of April 1 for census years. Sources that presented data already adjusted to a per capita basis were used as presented. Other per capita figures were calculated by the Office of State Budget and Management using population estimates available for the appropriate time periods. Please check the footnote section for a description of the population estimates series used for each per capita calculation. All population estimates used were rounded prior to the per capita calcuations.

POPULATION AND HOUSING

A1 As of April 1; includes Armed Forces stationed in area.

A2, A3 As of July 1; includes Armed Forces stationed in area.

A4, A6, A7, A10, A11, A18, A20-A30, A31, A48 As of July 1.

A8, A12, A14, A19, A32, A36-A41, A44-A47, A49-A59 As of April 1.

A9 1980 as of April 1; 1987 as of July 1, includes Armed Forces stationed in area.

A13 Land area as of April 1, 1980; Population as of July, 1987.

A14, A15 Comprises net immigration from abroad, net interregional, interdivisional, or interstate migration, and movement of persons in the Armed Forces. See glossary for detailed explanation.

A15 From April 1, 1980 to July 1, 1986.

A16 As of November. Estimated population, 18 years and over. Includes Armed Forces stationed in each state, aliens, and institutional population.

A17 As of November. Projected population 18 years and over. Includes Armed Forces in each state.

A33-A35 As of July 1. Excludes Armed Forces abroad. Refers to 261 metropolitan statistical areas and consolidated metropolitan statistical areas as defined by U.S. Office of Management and Budget, June 30, 1987. See glossary for detailed explanation.

A35 District of Columbia and New Jersey do not have nonmetropolitan areas.

A38 Includes Eskimo and Aleut.

A39-A42, A45-A48, A51 See glossary for detailed explanation.

A40 Vermont and West Virginia have no persons living in military quarters. See glossary for detailed explanation.

A43 As of end of fiscal year. Veterans who served in both World War II and the Korean conflict, or in both the Korean conflict and the Vietnam era are counted only once. Data were developed from benchmark veteran population statistics as of April 1, 1980, based on the 1980 Census of Population data on veteran's place of residence, extended to later years on the basis of 1975-1980 veteran interstate migration statistics from the 1980 census; not directly comparable with earlier estimates previously published by the Veterans Administration. Excludes a small indeterminate number of National Guard personnel or reservists who incurred service-connected disabilities while on an initial tour of active duty for training only.

A52 Percent of all occupied housing units that were overcrowded (more than one person per room), had incomplete plumbing, or were overcrowded and lacked complete plumbing. See glossary for detailed explanation.

A57 "Specified owner-occupied" housing units include one-family houses on less than 10 acres without a commercial establishment or medical office on the property. The data exclude owner-occupied condominium housing units, mobile homes, trailers, boats, tents, or vans occupied as a usual residence, as well as owner-occupied noncondominium units in multi-family buildings.

A58 "Gross rent" is the contract rent plus the estimated average monthly cost of utilities (electricity, gas, and water) and fuels (oil, coal, kerosene, wood, etc.) if these are paid by the renter (or paid for the renter by someone else) in addition to rent. "Specified renter-occupied" housing units include renter-occupied units except one-family houses on 10 or more acres.

A59 "Specified owner with a mortgage". Selected monthly owner costs is the sum of payments for mortgages, deeds of trust, or similar debts on the property; real estate taxes; fire and hazard insurance on the property; utilities (electricity, gas, and water); and fuels (oil, coal, kerosene, wood, etc.).

A60 Based on about 17,000 places in U.S. having building permit systems.

A62 There was a rush of sales at the end of 1986 to take advantage of the old tax law, which offered more favorable deductions than under tax reform that went into effect Jan. 1, 1987. State data provided by the California Association of Realtors. U.S. data provided by the National Association of Realtors.

A63, A64 U.S. value includes undistributed amounts.

A64 Based on population estimates as of July 1, 1987.

VITAL STATISTICS AND HEALTH

B1 Data are by place of occurrence. Based on population estimates as of July 1, 1986. In New Mexico and for some counties in New York and Arizona, data are marriage licenses issued; otherwise, data are counts of marriages performed.

B2 Data are by place of occurrence. Includes annulments. Based on total population residing in area estimated as of July 1, 1986. Data for Indiana and Louisiana are not available; U.S. value is estimated.

B3 Data are for registered births. Includes births to nonresidents of that state. U.S. values are based on monthly receipts corrected for observed differences between provisional and final monthly figures. State values have not been corrected in this manner.

B4 Represents deaths of infants under 1 year old, exclusive of fetal deaths. Excludes deaths of nonresidents of U.S.

B5, B6 Number of legal abortions are from surveys of hospitals, clinics, and physicians identified as providers of abortion services, conducted by the Alan Guttmacher Institute. Abortion rates are computed per 1,000 women 15-44 years of age on July 1, 1985; abortion ratios are computed as the number of abortions per 1,000 live births from July 1, 1985 to June 30, 1986.

B7 Includes deaths of nonresidents.

B8-B12 Based on resident population estimates as of July 1, 1985. Excludes nonresidents of U.S. Causes of death classified according to ninth revision of International Classification of Diseases.

B14, B15 Data are as of December 31 of year given. Excludes doctors of osteopathy, federal physicians and dentists, and physicians with addresses unknown. Includes all physicians not classified according to activity status.

B15 Based on data supplied by the American Dental Association.

B18 Covers nursing homes with 3 beds or more and all other places providing some form of nursing, personal, or domiciliary care; standards vary widely among states. Includes skilled nursing facilities, but excludes hospital-based nursing homes. For California, data include 4,985 residential community care facilities. For Florida, data include 429 adult congregate living facilities. For Kentucky, data include 373 family care homes. For Michigan, data include 2,243 adult foster care homes.

B19 Excludes 730 hospital-based homes and 238 nonresponding homes. Data are imputed for California and Michigan.

B21 Arizona and Florida do not have nursing homes classified as Medicaid ICF, and are excluded from U.S. value.

B21, B22 Facilities certified as both skilled nursing facilities (SNF's) and intermediate care facilities (ICF's) have been classified as SNF's.

B23 Data are as of January, 1987. Average daily room charges cover non-governmental short-term general or special hospitals (excluding psychiatric or tuberculosis hospitals) and represent average cost to patient for a semi-private room.

B24, B25 Total cost per patient is based on total hospital expenses (payroll, employee benefits, professional fees, supplies, etc.). Data have been adjusted for outpatient visits.

B26, B27 Data for District of Columbia are not applicable.

B27 Based on population estimates as of July 1, 1986, and are computed on the basis of amounts rounded to the nearest thousand.

B28 Distribution of expenditures by state represents location of provider of service. Per capita figures cannot be interpreted directly as spending per resident, unless substantially all of the services provided in a state are consumed by residents of that state. Covers all expenditures for health services and supplies, except net cost of insurance and administration, government public health activities, and expenditures of philanthropic agencies for fund-raising activities.

SOCIAL AND HUMAN SERVICES

C1, C2 Data are the number of beneficiaries in current-payment status as of December, 1986 for old-age, survivors, and disability insurance benefits. A person eligible to receive more than one type of benefit is generally classified or counted only once as a retired-worker beneficiary.

C2, C7, C12, C15 Based on population estimates as of July 1, 1986.

C3 Data are as of December, 1985. U.S. value is not included.

C4 Data are not given for District of Columbia, and are excluded from U.S. value. U.S. figure is a population-weighted average.

C5, C10, C13, C23 Based on population estimates as of July 1, 1987.

C6, C14 As of end of fiscal year.

C9 U. S. value includes undistributed amounts.

C11 Total recipients as of June of AFDC and of federal SSI as percent of resident population. Data for SSI cover federal SSI payments and/or federally administered state supplementation, except for those states for which data represents persons with federal SSI payments only (state has state administered supplementation): Alabama, Alaska, Arizona, Colorado, Connecticut, Idaho, Indiana, Illinois, Kentucky, Minnesota, Missouri, Nebraska, New Hampshire, New Mexico, North Carolina, North Dakota, Oklahoma, Oregon, South Carolina, Utah, Virginia, West Virginia, and Wyoming. Texas data are for persons with federal SSI payments only; state supplementary payments are not made.

C12 Data for District of Columbia are not applicable.

C14 Data on pupils participating in National School Lunch Program are for month in which most pupils participated nationwide. Covers public and private elementary and secondary schools and residential child care institutions.

C16 Hospital and/or medical insurance as of July 1. U.S. value includes data for enrollees with residence unknown.

C17 Payments are for calendar year and represent total disbursements from federal hospital and supplementary medical insurance trust funds. Estimates of distribution by state based on interim reimbursements. U.S. value includes data for enrollees with residence unknown.

C19, C20 For fiscal year ending September 30, 1986. U.S. value includes data for enrollees with residence unknown. Data for Arizona are not applicable.

C20 Persons receiving Medicaid at any time during year.

C21 Data for Arizona are not applicable.

C23, C24 A compilation of the quarterly expenditure reports (form HCFA-64) submitted to the Health Care Financing Administration (HCFA) for fiscal year 1987 and grant awards and related financial management actions processed through March 31, 1988.

C25, C26 Only four states (Alaska, Georgia, Idaho, and Tennessee) submitted reports that did not enumerate an individual child repeatedly for multiple investigations in a single year. For about one-third of the states the number of children investigated for child abuse and/or neglect was estimated based on the state's reporting for families or, as a last resort, on the previous year's data.

EDUCATION

D2 Includes Armed Forces residing in each state.

D1, D3 The Education Departments of Georgia, Massachusetts, Michigan and Nevada did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used. Some of Indiana's prekindergarten students are taught by federally funded teachers; however, they are included in the elementary total.

D3 The Education Departments of Alaska, Indiana, and Nebraska did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used. For Arizona, Average Daily Membership and Average Daily Attendance data are reported with kindergarten at full count. In the past, Average Daily Membership and Average Daily Attendance have been reported with kindergarten at half count. California, Idaho, Michigan, Missouri, Texas, and West Virginia do not compute or provide estimates for their statewide Average Daily Membership.

D4, D5 The Education Departments of Georgia, Indiana, Massachusetts, Michigan, Nebraska, and Nevada did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used. Some of Indiana's prekindergarten students are taught by federally funded teachers; however, they are included in the elementary total. For Arizona, Average Daily Membership and Average Daily Attendance data are reported with kindergarten at full count. In the past, Average Daily Membership and Average Daily Attendance have been reported with kindergarten at half count. California, Idaho, Michigan, Missouri, Texas, and West Virginia do not compute or provide estimates for their statewide Average Daily Membership, thus there is no value for U.S.

D7, D8 U.S. total includes U.S. service schools.

D8 Data are not available or not applicable for District of Columbia and South Dakota and are not included in the U.S. value.

D9 Data are not available or not applicable for Wyoming and are not included in U.S. value.

D10 Data are not available or not applicable for Alaska, Delaware, District of Columbia, Hawaii, Nevada, New Mexico, Rhode Island, and Wyoming, and are not included in U.S. value.

D11 Number of children served during the school year. Data as of October 1, 1987. The figures represent children 0-20 years old served under Chapter 1 of ECIA (SOP) and children 3-21 years old under EHA-8.

D12 Number of institutions for academic year beginning 1985. Branch campuses counted as separate institutions. U.S. value includes U.S. military academies.

D13 Opening fall enrollment of resident and extension students attending full-time or part-time. Excludes students taking courses for credit by mail, radio, or TV, and students in branches of U.S. institutions operated in foreign countries. U.S. value includes U.S. military academies.

D14 Excludes foreign students and outlying areas. Colorado and Ohio response rates were below 70 percent.

D15 Excludes equivalency certificates.

D17 Rates apply to the adult population age 20 and over. All rates have been rounded to the nearest whole percent. A state's rate is calculated as the sum of the probabilities of illiteracy coefficients taken from a regression model based on the 1980 Census of Population (education levels, immigration status, language, age, race and poverty status.) times the percent of the state's adult population in the corresponding risk group minus 3.4 (the intercept of the regression model).

D22 The number of staff employed in public schools. The Education Departments of Georgia, Indiana, and Massachusetts did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used.

D23, D24 The Bureau of the Census computed the data with a formula using hours worked by part-time employees. A payroll based formula was used prior to the 1985 Census survey. The Education Departments of Georgia, and Massachusetts did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used.

D25, D26 The Education Departments of Georgia, Indiana, Massachusetts, Mississippi, Nevada, and Vermont did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used.

D26 California, Idaho, Michigan, Missouri, Texas, and West Virginia do not compute or provide estimates for their statewide Average Daily Membership, thus there is no value for U.S.

D27 The Education Departments of District of Columbia, Georgia, Indiana, Kansas, Massachusetts, Michigan, Mississippi, and Vermont did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used.

D28, D29, D30 The Education Departments of Georgia, Indiana, Massachusetts, Michigan, Mississippi, Nebraska, and Vermont did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used. For Ohio, 1987-88 average salary does not include supplemental pay. For Oregon, salaries include a 6 percent pickup of employee portion of retirement contribution by employer.

D31 California, Illinois, Louisiana, Minnesota, New York, South Carolina, and Tennessee are preliminary or estimated data. Alabama, Arizona, Delaware, Florida, Georgia, Indiana, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, North Carolina, Pennsylvania, Texas, West Virginia, and Wyoming are data estimated by American Federation of Teachers. Data are not available or not applicable for Montana and are not included in U.S. value. The mean is a weighted average.

D32 The Education Departments of Alaska, Arizona, Georgia, Indiana, Iowa, Massachusetts, Mississippi, Nebraska, Nevada, and North Carolina did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used. For California, local revenues to support schools are determined by the state legislature and governor. Boards of education have no authority to raise revenues for their district. For Colorado, public school revenues are collected and reported on a calendar-year basis. For Ohio, local and nonrevenue receipts do not include capital outlay and other non-operational funds that were included prior to 1986-87.

D33 The Education Departments of Arizona, Georgia, Indiana, Iowa, Massachusetts, Michigan, Mississippi, Nebraska, and North Carolina did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used. For California, local revenues to support schools are determined by the state legislature and governor. Boards of education have no authority to raise revenues for their district. For Colorado, public school revenues are collected and reported on a calendar-year basis. For Ohio, local and nonrevenue receipts do not include capital outlay and other non-operational funds that were included prior to 1986-87.

D34 The Education Departments of Arizona, Georgia, Indiana, Iowa, Massachusetts, Michigan, Mississippi, Nebraska, and North Carolina did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used. For California, local revenues to support schools are determined by the state legislature and governor. Boards of education have no authority to raise revenues for their district. For Colorado, public school revenues are collected and reported on a calendar-year basis. For Ohio, local and nonrevenue receipts do not include capital outlay and other non-operational funds that were included prior to 1986-87.

D35 The Education Departments of Arizona, Georgia, Illinois, Indiana, Iowa, Massachusetts, Michigan, Mississippi, Nebraska, and North Carolina did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used. For California, local revenues to support schools are determined by the state legislature and governor. Boards of education have no authority to raise revenues for their district. For Colorado, public school revenues are collected and reported on a calendar-year basis. For Ohio, local and nonrevenue receipts do not include capital outlay and other non-operational funds that were included prior to 1986-87.

D38, D40 Based on population estimates as of July 1, 1987.

D39 The obligations for the 10 major R&D supporting agencies included in this table represent more than 97% of total federal R&D obligations in 1985. Detailed NIH data for FY 1985, 1986, and 1987 were unavailable at the time of publication. Field of science/engineering, performer, and geographic data were estimated by USF.

D40 State totals were calculated by applying the pro rata share of each state's award allocation to the US total outlay for this program.

D41, D42, D44-D48 Data for District of Columbia are not available.

D43 The Education Departments of Alaska, Illinois, Indiana, Iowa, Massachusetts, Michigan, Mississippi, Nebraska, Nevada, Utah, and West Virginia did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used. For Colorado, public school expenditures are collected and reported on a calendar-year basis. For Michigan, expenditures for administration by the state board of education and the state department of education are not included in the expenditure figures. For Ohio, total current expenditures prior to 1986-87 include some non-operational expenditures, and post-secondary expenditures. The 1986-87 data include operational expenditures for grades K-12 only. California, Idaho, Michigan, Missouri, Texas, and West Virginia do not compute or provide estimates for their statewide Average Daily Membership, thus there is no value for U.S.

D49, D50, D52 Duplicative intergovernmental transactions are excluded where applicable. Vermont school district data are estimated; actual data were unavailable.

D53 The Education Departments of Alaska, Indiana, Massachusetts, Michigan, and Utah did not respond to the National Education Association Research's requests for estimates of school statistics. NEA estimates were used. For Colorado, public school expenditures are

collected and reported on a calendar-year basis. For Michigan, expenditures for administration by the state board of education and the state department of education are not included in the expenditure figures. For Ohio, total current expenditures prior to 1986-87 include some non-operational expenditures, and post-secondary expenditures. --The 1986-87 data include operational expenditures for grades K-12 only.

LAW ENFORCEMENT, COURTS AND CORRECTIONS

E1-E10 Offenses known to the p[illegible] per 100,000 population. Based on Bureau of the Census estimated resident population as of July 1, 1986. Based on reports the FBI's Uniform Crime Reporting Program received from law enforcement agencies throughout the country, currently representing 97 percent of the national population. Data for the District of Columbia include offenses reported by the police at the National Zoo.

E4 Forcible rape figures furnished by the state-level Uniform Crime Reporting Program administered by the Illinois Department were not in accordance with national guidelines. The 1986 forcible rape totals for most agencies in Illinois were, therefore, estimated using the national rate of forcible rapes when grouped by like agencies.

E11 Includes persons under correctional supervision in jails or prisons, and on parole or probation. Those in jails include both convicted and unconvicted adults held in locally operated jails. Those in prisons include all inmates of federal and state institutions.

E11-E14 As of December, 31. Excludes juveniles, persons incarcerated in mental health institutions in lieu of prisons, persons held by the armed services, persons held on Indian Reservations, parolees under county jurisdiction, parolees whose sentences were for one year or less, and court probationers not placed under the supervisory authority of a probation agency. U.S. totals include persons in both state and federal systems.

E13 Includes all adults under state parole supervision, whether released from prison via parole board decision or mandatory release, who were sentenced to more than one year in prison.

E14 Includes all adults, who as part of a state, or local court order, have been placed under the supervisory authority of a probation agency.

E15, E16 The U.S. total includes prisoners in federal and state institutions. For the year ended December 31. Includes prisoners held in jails because of crowding: Maine, Massachusetts, Illinois, Wisconsin, Virginia, South Carolina, Kentucky, Alabama, Mississippi, Louisiana, Idaho, Utah, California, and Washington. Both jail and prison inmates included where the state has a combined system: Vermont, Massachusetts, Rhode Island, Connecticut, Delaware, District of Columbia, Alaska, and Hawaii. Excludes state prisoners held in local jails because of overcrowding: New Jersey, District of Columbia, Colorado, Tennessee, and Arkansas. Includes an undetermined number of prisoners with sentences shorter than one year: Colorado, Oklahoma, Arkansas, Ohio, and Massachusetts.

Numbers are custodial, not jurisdictional counts: Texas, Tennessee, Florida, Georgia, District of Columbia, Iowa, Michigan, and California. Virginia data represents the year ending 1985.

E16 Unpublished Bureau of the Census estimates as of July 1, 1986 for the resident population were used to calculate rates. State estimated number of prisoners with sentences of two years or more instead of more than one year: Maine, Maryland and North Carolina.

E17 The percent of federal and state prisoners who were female represent all persons under jurisdiction of federal and state authorities rather than those in custody of those authorities as of July 1, 1984. The U.S. total includes data for federal prisoners not distributed by state.

E18 Employment represents all employees, regardless of the hours worked per week, as of October, 1985. Local government data are estimates subject to sampling variation.

E19, E20 Local government data are estimates subject to sampling variation. Figures represent full-time employment as defined by the individual local government for October, 1985. The employment per 10,000 population calculation is based on July 1, 1985 estimate of the resident population.

E21 Based on population estimates as of July 1, 1986, and computed on the basis of amounts rounded to the nearest thousand. Data for District of Columbia are not applicable.

E22 Includes expenditures for police protection, corrections, judicial and legal services. Per capita calculation based on July 1, 1985 estimate of the resident population.

E23, E24 Data based on the 1985 edition of the Martindale-Hubbell Law Directory. Represents all persons who are members of the bar, including those in industries, educational institutions, etc., and those inactive or retired. Represents lawyers reporting only - approximately 90 percent of all lawyers. Includes an estimated adjustment to account for duplications. Weighted to account for non-reporters and duplicate listings. Total for U.S. counts each lawyer only once regardless of the number of offices maintained by the lawyer, unless a lawyer maintains an office in more than one state.

E24 The rate per 10,000 is based on Bureau of the Census estimated resident population, including Armed Forces stationed in the area as of July 1, 1985.

ENVIRONMENT, RECREATION AND RESOURCES

F1 One sq. mile = 2.59 sq. kilometers. See glossary for detailed explanation.

F2 Square miles of dry land and land temporarily or partially covered by water, such as marshland, swamps, etc.; streams and canals under one-eighth statute mile wide; and lakes, reservoirs, and ponds under 40 acres in area. One sq. mile = 2.59 kilometers.

F3, F5 Excludes trust properties.

F3-F5 As of end of fiscal year.

F6-F11, F14 Data for Alaska and District of Columbia are excluded and not included in the U.S. value.

F12 Data are not available for District of Columbia, Nebraska, and Nevada and are excluded from U.S. value.

F13 Data were collected from a sample of lumber mills and represent total production and inventories for all U.S. sawmills. Data were withheld to avoid disclosing figures for individual companies for Alaska, Hawaii, Nevada, and Utah. Combined production for Connecticut and Rhode Island is 65 mil. of board feet. Combined production for Kansas and Nebraska is 22 mil. of board feet.

F14 Includes cropland, pastureland, rangeland, forest land, and minor land cover/uses.

F15 Includes wind erosion, and sheet and rill erosion. Data are estimated.

F16-F20 For year ending June 30. Data are shown as reported by state park directors. In some states, park agency has under its control forests, fish and wildlife areas and/or other areas. In other states, agency is only responsible for state parks.

F20 Data for Alaska and District of Columbia are excluded and not included in the U.S. value.

F21 Data for Alaska, Arizona, California, Hawaii, Lousiana, and Washington are withheld to avoid disclosing individual company data. U.S. value includes undisclosed amounts. State and U.S. values were independently derived.

F22 Withdrawal signifies water physically withdrawn from a source.

F23 Tennessee data include a $2.5 million one-time gift. Based on population estimates as of July 1, 1985.

F24 Includes federal and nonfederal. Sites are placed on the NPL primarily on the basis of their scores using the Hazard Ranking System (HRS), a numerically based system designed to evaluate the relative risks posed by a site to human health or the environment.

F25 FEMA - Federal Emergency Management Agency. Indiana and Oregon had no disaster relief amounts. Some disaster relief funds were undistributed by state.

ENERGY AND UTILITIES

G1 Sources of energy include geothermal, wood and waste, and net interstate sales of electricity, including losses.

G3 Ohio has less than 0.05 percent and is not included in the U.S. value.

G5, G7, G9, G11, G14, G16, G18, G21, G22, G26, G28, G30, G33 Based on estimated resident population as of July 1, 1985.

G8, G9 Rhode Island has less than 500 billion or .05 percent and is not included in the U.S. value.

G13 U.S. value includes 13.5 trillion BTU of net imports of coke not shown separately.

G17, G18 Capacity as of December 31, 1986. Covers utilities for public use.

G19, G20, G21 Covers natural, manufactured, mixed and liquid petroleum gas. Based on questionnaire mailed to all privately and municipally owned gas utilities in U.S., except those with annual revenues less than $25,000. Excludes sales for resales.

G20 Averages for the year given.

G29, G30-G33 End-use sector and electric utilities exclude expenditures on energy sources such as hydropower, solar, wind, and geothermal. Also excludes expenditures for reported amounts of energy consumed by the energy industry for production, transportation, and processing operations.

G32 U.S. value includes net imports of coal coke not shown separately by state.

GOVERNMENT

H1-H5, H20-H30, H32, H33, H35, H36, H38-H41, H41, H60 Data for District of Columbia are not applicable.

H2, H3, H5, H21, H22, H24, H41, H47, H49, H51, H66, H68 Based on population estimates as of July 1, 1986, and computed on the basis of amounts rounded to the nearest thousand.

H5 Alaska, Delaware, Montana, New Hampshire, and Oregon have no data.

H7, H11, H13, H18, H43, H45, H55, H57, H59, H61, H64 Based on population estimates as of July 1, 1987.

H10 Percentages were computed based on amounts in thousands of dollars.

H11 Data for Alaska, Delaware, Montana, New Hampshire, and Oregon are not applicable.

H12, H13 Data for Florida, Nevada, South Dakota, Texas, Washington, and Wyoming are not applicable.

H14 (Amount of tax increase on taxable income of $40,001 rather than 40,000). As of August 1987. Local income tax rates, even those mandated by the state, are not included. Taxable income rates and brackets apply to single individuals and married taxpayers filing "combined separate" returns in states where permitted. Alaska, Florida, Nevada, South Dakota, Texas, Washington, and Wyoming have no state income tax. Alabama, Delaware, Iowa, Indiana, Kentucky, Maryland, Michigan, Missouri, New York, Ohio, and Pennsylvania are states in which one or more local governments levy a local income tax. Arizona, California, Iowa, Maine, Minnesota, Montana, Oregon, and Wisconsin are indexed by an inflation factor. Amounts shown are for 1986. Oregon and Wisconsin are scheduled to begin indexing in 1987. 1987 inflation adjustment will be determined in the fall. Maryland: all counties have a local income tax surcharge of at least 20% of state tax liability; most counties have a surcharge of 50%. New Jersey: no taxpayer is subject to tax if gross income is $3,000 or less ($1,500 married, filing separately). North Dakota: taxpayers have the option of paying a tax of 14% of the taxpayers adjusted federal income tax liability or using the long form with a separate schedule; taxpayers using the long form may deduct federal income tax paid; a 10% surtax is also imposed in 1987. Oklahoma: these tax rates and brackets apply to single persons not deducting federal income tax. For individuals deducting federal income tax, rates range from .5% of the first $1,000 to 17% on income over $49,000. Colorado: 5% of federal income tax liability. Connecticut and Tennessee: very limited income tax. Rhode Island: tax rate is 23.46% of federal income tax liability. Vermont: tax rate is 25.8% of federal income tax liability.

H15 (Amount of tax increase on net income of $1,000,001 rather than $1,000,000). Nevada, South Dakota, Texas, Washington, and Wyoming have no corporate income tax.

H16 Tax capacity is the amount of revenue each state would raise if it applied a national average set of tax rates to 26 commonly used tax bases. The index is the per capita tax capacity divided by the per capita average for all states, with the index for the average set at 100.

H17, H18 Data for Delaware, Hawaii, Iowa, New York, Oklahoma, South Dakota, Tennessee, and Texas are not applicable.

H25-H39 States with biennial budgets: Arkansas, Florida, Hawaii, Indiana, Kentucky, Maine, Minnesota, Montana, Nebraska, Nevada, New Hampshire, North Carolina, North Dakota, Ohio, Oregon, Texas, Vermont, Virginia, Washington, Wisconsin, and Wyoming.

H25-H31, H34, H37 General Fund for 1989 is proposed.

H26, H28, H30 Based on population projections as of July 1, 1989.

H33, H36, H39 Based on population projections as of July 1, 1988.

H32- H39 General Fund for 1988 is estimated.

H44, H45, H64 The tax burden for federal grants is assumed to equal grant payments. Comparisons of federal tax burdens for aid payments per $1.00 of assistance do not actually indicate the entire costs which state and local governments incur for obtaining federal grants. The comparisons, with few exceptions, do not take into account the costs to these governments of administering the programs for which the aid is granted, nor the amounts of matching funds which the state and local governments must make available out of their own revenues in order to qualify as recipients of these grants. It is estimated that state and local governments provide about 41 cents of matching funds for each $1.00 of federal aid.

H46, H47, H48, H49, H50, H51 Vermont school district data are estimated, actual data were unavailable.

H51 Duplicative intergovernmental transactions are excluded.

H42, H54, H58 U.S. value includes undistributed amounts.

H70 Florida and Oklahoma state laws do not require tabulation of votes for unopposed candidates.

H71-H74 Registration figures are based on final and official registration statistics provided by Secretaries of State and State Registrars. The accuracy of registration figures varies according to the stringency of purges conducted in each state and locality. There is, therefore, some inflation in these figures, although the trends between years are likely to be accurate.

H71, H72, H74 Includes voters registered with other parties and with no party (independents). North Dakota does not require registration. Wisconsin has no statewide registration.

H73, H74 Number shown represents the highest number of votes cast for the Senatorial election, the gubernatorial election or all races for the U.S. House of Representatives.

EMPLOYMENT AND INCOME

I2, I10, I13, I15 For resident noninstitutional civilians in the labor force age 16 years and over during the reference week. For most respondents to the 1980 Census the reference week was the last calendar week of March, 1980. Labor force status obtained from respondents in households.

I3-I9 Employment data were obtained from the Current Population Survey, a monthly sample survey used to gather data for the calendar week including the 12th of each month. Labor statistics were prepared for the civilian noninstitutional population, 16 years and over. Annual data are averages of monthly figures. U.S. totals were derived by independent population controls; therefore state data may not add to U.S. totals.

I10 "Own" children only.

I11, I12 Data represent annual average, dues-paying full-time equivalent membership derived from financial records. Excludes unemployed members. Certain states have "Right-to-Work" laws which prohibit collective bargaining contracts from including clauses requiring union membership as a condition if employment. States with "Right-to-Work" laws include Alabama, Arizona, Arkansas, Florida, Georgia, Iowa, Louisianna, Mississippi, Nevada, North Carolina, North Dakota, South Carolina, South Dakota, Tennessee, Texas, Utah, Virginia, and Wyoming. Until recently Kansas had a "Right-to-Work" law, but it had been repealed by 1985.

I12 The employment denominator uses nonagricultural employment.

I16-I24, I39 Data were based on establishment records compiled by the U.S. Bureau of Labor Statistics and cooperating state agencies. The establishment survey, voluntarily completed by employers for the payroll period including the 12th of the month, excludes proprietors of unincorporated firms, self-employed persons, private household workers, unpaid family workers, agricultural workers, and the Armed Forces. Unlike the employment data collected from the Current Population Survey, the establishment survey counts individuals with two jobs twice and represents employment by by place of work instead of place of residence. Data for the District of Columbia represent the Washington, D.C. metropolitan statistical area, and therefore are excluded from the average of all states. Industry classification followed the 1972 Standard Industrial Classification code system. These annual data are the average of monthly data. National totals differ from the sum of the state figures because of differing benchmarks among states and geographic stratification.

I25 Data as of December 31, 1986. Excludes members and employees of Congress, Central Intelligence Agency, temporary Christmas help of the U.S. Postal Service and National Security Agency. National total includes employees not specified by state.

I26, I27 For October. Based on resident population estimates/counts as of July 1/April 1 respectively.

I27 Data for the District of Columbia are not applicable, and thus excluded from the U.S. value.

I28-I33 Income is money income for the calendar year for persons 15 years old and over.

I30, I31 Data developed by the Bureau of the Census for the Low-Income Home Energy Assistance Program.

I34 The personal income level shown for the U.S. differs from that in the national income and product accounts, primarily because it omits the earnings of federal civilian and military personnel stationed abroad and of U.S. residents who are employed abroad temporarily by private firms.

I35, I36 Per capita personal income is the annual total personal income of residents divided by the July 1st estimate of the resident population.

I39 Data for the District of Columbia represent the Washington, DC metropolitan statistical area (MSA).

I40 Preliminary, revised since original publication.

I40, I41 For workers covered by state unemployment insurance laws and for federal civilian workers covered by unemployment compensation, the Armed Forces, elected officials in most states, railroad employees, most domestic workers, employees of certain nonprofit organizations and most self-employed individuals. Pay includes bonuses, cash value of meals and lodging, and tips and other gratuities.

I42-I45 Individuals excluded from poverty determination include: (1) unrelated individuals under 15 years of age; (2) persons living in military group quarters; (3) person living in college dormitories; and (4) inmates of institutions. While money income amounts used to determine poverty were for the calendar year, population and family counts were as of the following April.

I46, I48 Based on population estimates as of July 1, 1987.

I47 U.S. value includes undistributed amounts.

I49-I51 FUTA collections are estimated and may be revised; UI grants are actual state obligations; other grants are federal obligations or allotments for Wagner-Peyser, LVER, DVOP, and LMI. Federal unemployment taxes are estimated.

BUSINESS AND INDUSTRY

J4 Listed concerns represent the total number of business enterprises listed in Dun's Census of American Business.

J9, J11 Population estimate as of July 1.

J12, J13 Includes extensive and unmeasurable duplication from shipments between establishments in the same industry classification. Sum of state totals may not add to U.S. total because U.S. and state figures were independently derived.

J12-J15 Adjusted value added; takes into account: (a) value added by merchandising operations (that is, difference between the sales value and cost of merchandise sold without further manufacture, processing, or assembly), plus (b) net change in finished goods and work-in-process inventories between beginning and end of year. Data are based on pay periods ending nearest 15th of March, May, August and November. Sum of state totals may not add to the U.S. total because the state and national figures were derived separately.

J16 Total manufacturing employment represents the average of "production workers" plus all other employees for the payroll period ended nearest the 12th of March. "Production workers" represents the average of the employment for the payroll periods ending nearest the 12th of March, May, August, and November. Sum of state totals may not add to the U.S. total because the state and national figures were derived separately.

J17 Deposits presented as of December 31, 1986. Excludes foreign branches of U.S. banks. Per capita amounts reflect population estimates as of July 1, 1986. Data reflect revisions submitted to the Federal Deposit Insurance Corporation (FDIC) by banks after the original filing date.

J18 Represents all life insurance on residents of the U.S., whether issued by U.S. or foreign companies. Per capita amount reflects a population estimate as of July 1, 1986.

J19 The total value of construction represents nonbuilding construction, in addition to nonresidential and residential building. Includes new structures and additions to existing structures. Represents value of construction in states in which work was actually done.

J20 The state of origin is where the merchandise actually begins its journey to the port of export. In the case of consolidated shipments, it is the state of the commodity of greatest value or the state where the shipment was consolidated. The state is not necessarily where the merchandise were manufactured or grown. The U.S. figure includes "state unreported", other unspecified or estimated entries, and adjustments for undocumented exports to Canada. It does not include exports of Puerto Rico and the Virgin Islands.

J21 The state of destination is reported on the import entry summary by the ultimate consignee.

J22 Includes both direct and supporting exports for all manufacturing establishments. Supporting exports include shipments of components, parts, supplies, etc., used by plants producing the export product. Supporting exports were estimated for the Bureau of Economic Analysis input-output industries, allocated to states and aggregated into state Standard Industrial Classification (SIC) totals.

J23 This estimate includes employees of central administrative and auxiliary offices. Measures both manufacturing employment directly related to exports and that indirectly related via production of manufactured goods that become inputs to exported manufactured goods.

J24 Less than 500 acres were determined to be owned by nonbank U.S. affiliates in the District of Columbia.

J24, J25 These estimates are on a fiscal year basis. An individual affiliate's 1986 fiscal year is its financial reporting year the ended in calendar year 1986.

J27, J29 Based on population estimates as of July 1, 1987.

J30 The U.S. total reflects changes in Colorado, Texas, and Wisconsin figures since the Travel Data Center survey was conducted in July, 1986. Colorado figures were updated April, 1987 by the Council of State Governments. The budget figure for Nevada includes the cost of the "Nevada Magazine". Texas reduced its tourism budget to $3.5 million as of April 7 for fiscal year 1986-87, with further cuts likely. Wisconsin appropriated an additional $2 million to tourism on February 13, 1987, which significantly brought the state up from its 1986-87 ranking of 32 in spending. No data are presented for the District of Columbia.

AGRICULTURE

K1, K4 Based on the 1974 census definition of farms and farmland. The U.S. total reflects the District of Columbia, but since the area had fewer than 1,000 farms or 1,000 acres of farmland no data are shown.

K2, K3 Farm population as of April 1, 1980. The U.S. total reflects the District of Columbia, but since fewer than 1,000 individuals in the area lived on farms data are not shown.

K5 Data as of February 1, 1987. Total value of land and buildings is estimated by multiplying the number of acres of farmland by the average value per acre of land and buildings. Average values are based on land-value data obtained from the census of agriculture. For intercensal years like 1987, estimates of average value per acre are based on surveys conducted by the U.S. Department of Agriculture. In 1987 the index of average value per acre was estimated by combining survey data to obtain an average rate of change for the New England states. U.S. total excludes Alaska, and Hawaii. The U.S. total reflects the District of Columbia, but since the area had fewer than 1,000 acres of farmland no data are shown.

K6 U.S. totals exclude Alaska. The U.S. total reflects the District of Columbia, but since the area had fewer than 1,000 acres of farmland data are not shown.

K7 Farm value data for Hawaii are incomplete. U.S. total excludes Alaska. The U.S. total reflects the District of Columbia, but since the area had fewer than 1,000 acres of farmland data are not shown.

K8 Data are not shown for states where production was insignificant or when individual operations would be disclosed.

K9-K11 Data are not shown for states where production was insignificant or when individual operations would be disclosed.

K12 Based on turkeys placed September 1, 1986 through August 31, 1987. Excludes young turkeys lost. Data are not shown for states where production was insignificant or when individual operations would be disclosed.

K13-K19 The U.S. total reflects the District of Columbia, but since the area had fewer than 1,000 acres of farmland data are not shown.

K13, K14, K18 Farm income data reflect inventory adjustment and include farm operator households.

K17 Data are not shown for Rhode Island where there were less than $500,000 in government payments.

K19 As of December 31, 1986. Includes farm operator households.

TRANSPORTATION

L1 Motor vehicle registrations cover commercially, privately, and publicly owned vehicles, except for vehicles owned by military services. For uniformity, figures have been adjusted to a calendar-year basis as registration years in states differ; figures represent net numbers where possible, excluding re-registrations and nonresident registrations.

L1, L2 Includes taxis.

L2, L3 Based on resident population as of July 1, 1986. Motor vehicle registrations cover commercially, privately, and publicly owned vehicles, except for vehicles owned by military services. For uniformity, figures have been adjusted to a calendar-year basis as registration years in states differ; figures represent net numbers where possible, excluding re-registrations and nonresident registrations.

L4 Estimated from data reported by states for current and previous years; allowance has been made for deaths, emigration, or revocation by some states.

L5 Based on resident population as of July 1, 1986. Estimated from data reported by states for current and previous years; allowance has been made for deaths, emigration, or revocation by some states.

L6 Excludes motorcycles. District of Columbia excluded from calculation of mean.

L7, L9 Fatal accident numbers have been adjusted to agree with state totals from the Fatal Accident Reporting System. These data included all accident victims dying within 30 days of their accident.

L8 Based on resident population as of July 1, 1986. Fatal accident numbers have been adjusted to agree with state totals from the Fatal Accident Reporting System. These data included all accident victims dying within 30 days of their accident.

L10 Nonpublic road mileage excluded. Mileage as of December 31, 1986. Incomplete 1986 data submitted for Alaska: 1985 data used. Because of factoring procedures used,

individual data components may not be compatible among the various mileage tables. Incomplete 1986 data submitted for Alaska; 1985 data used. Nonpublic road mileage excluded.

L11, L12 Disbursements are classified by system on which expended, rather than by expending agency (e.g., capital outlay on local rural roads includes expenditures from federal, state, and local funds). Data may include estimates. U.S. total may not sum to state total reflecting direct expenditures undistributed by states.

L13 Based on population estimates as of July 1, 1986, and computed on the basis of amounts rounded to the nearest thousand. Data for District of Columbia are not applicable.

L14 U.S. total may not sum to state total reflecting direct expenditures undistributed by states. Data may include estimates.

L15 Mileage as of December 31, 1986. Incomplete 1986 data submitted for Alaska; 1985 data used. Excludes ferry route mileage.

L16 Excludes ferry route mileage in Alaska (577 miles), Arkansas (1 mile), Illinois (2 miles), Kentucky (1 mile), Maine (3 miles), New Jersey (1 mile), New York (1 mile), Tennessee (1 mile), Texas (1 mile), and Washington (6 miles). Mileage as of December 31, 1986. Incomplete 1986 data submitted for Alaska; 1985 data used. Excludes ferry route mileage.

L18, L20, L22 Based on population estimates as of July 1, 1987.

L19, L21 U.S. value includes undistributed amounts.

L24, L25, L26 The principal means of travel or type of conveyance usually used by workers 16 years old and over during the reference week, generally the last week of March, 1980, to travel from home to work.

Glossary

POPULATION AND HOUSING

Fiscal Year - See Glossary: Government.

Group Quarters - Actual census counts as of April 1, 1980 of persons in living arrangements, such as nursing homes or rooming houses, which are not households. Group quarters persons are either inmates of institutions or persons in other types of group quarters. An inmate of an institution is a person under care or custody at the time of enumeration. This category includes homes for the aged, correctional institutions, and mental hospitals. Persons living in group quarters who are not inmates of institutions include those living in rooming and boarding homes, communes, convents, monasteries, or other units in which ten or more unrelated persons share housing. Persons living in certain types of living arrangements are classified as living in "other" group quarters regardless of the number or relationship of people. This category includes persons in military barracks, on ships, in college dormitories, sorority and fraternity houses, missions, etc.

Household - An occupied housing unit. Counts of households, householders, and occupied-housing units are always identical in complete count tabulations.

Median Age - Age at which half the population is older and half younger.

Metropolitan Population - All county residents of those counties which contain a large population nucleus together with adjacent communities which have a high degree of social and economic integration with that nucleus. The entire territory of the U.S. is classified as metropolitan (inside Metropolitan Statistical Areas) or nonmetropolitan (outside Metropolitan Statistical Areas). MSA's are defined in terms of entire counties except in New England, where the definitions are in terms of cities and towns.

Military Group Quarters - Military personnel living in barracks or on ships. Residents of housing units on military bases are not counted here, but are included with the population in households.

No Telephone - No telephone in the occupied housing unit. A telephone in the building but not in the respondent's living quarters is not counted.

Occupied Housing Units - The classification of a housing unit with a person or persons living in it as a usual residence when enumerated, or when only temporarily absent, for example, on vacation. A household consists of all the persons who occupy a housing unit. If all the persons staying in the unit have their usual place of residence elsewhere, the unit is classified as vacant.

Overcrowded Housing Units - Units with more than 1 person per room.

Plumbing, Lacking Complete - Housing units with some but not all plumbing facilities. Units with one or two but not all of these: hot and cold piped water, flush toilet, and a bathtub or shower; or no plumbing facilities. Includes housing units with complete plumbing facilities, but which are also used by another household.

Population - Total permanent resident population including institutions and military installations. College students are considered residents of the community in which they reside while attending college. Persons in the Armed Forces and quartered on military installations are considered residents of the community in which their installations are located.

Value of a Housing Unit - For owner-occupied housing units, the respondent's estimate of the current dollar worth of the property. For vacant units, value is the price asked for the property.

Year-Round Housing Units - All occupied units plus vacant units intended for year-round use.

VITAL STATISTICS AND HEALTH

Fiscal Year - See Glossary: Government.

General Expenditure - See Glossary: Government.

Government Expenditure - All amounts of money paid out by a government-net of recoveries and other correcting transactions-other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Note that expenditure includes only external transactions of a government and excludes non-cash transactions such as the provision of perquisites or other payments in kind.

Hospitals - Establishment and operation of hospital facilities (and institutions primarily for care and treatment-rather than education-of the handicapped), provision of hospital care, and support of other public or private hospitals. Does not include vendor payments for hospital care administered as a part of public assistance programs.

ICF (Intermediate Care Facility) - Facilities offering a level of care less than that offered in a skilled care facility, but more than that offered in a domiciliary care facility. These facilities must provide licensed nursing coverage eight hours a day, seven days a week, preferably during daylight hours.

SNF (Skilled Nursing Facility) - Facilities offering a level of care less than that offered in an acute care hospital, but more than that offered in an intermediate care facility. These facilities must provide licensed nursing coverage 24 hours a day, seven days a week.

AFDC (Aid to Families with Dependent Children) - Financial assistance available to families with children who are deprived of parental care or support due to the absence or incapacity of one or both parents. Payments are based on the difference between income available to the family and the total allowance established under the Consolidated Standard of Need for food, clothing, shelter, utilities, household furnishings, equipment and supplies, personal expenses, medicine (other than prescription drugs), certain school fees, and transportation costs for the members in the budget unit.

Fiscal Year - See Glossary: Government.

Food Stamp Program - A federal, state and local program designed to provide individuals meeting certain income eligibility standards set by the federal government with coupons for food through purchase or as a reduction from their assistance payment. The purchase price of the coupons is less than the dollar value of the goods they can purchase.

General Expenditure - See Glossary: Government.

Government Expenditure - All amounts of money paid out by a government-net of recoveries and other correcting transactions-other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Note that expenditure includes only external transactions of a government and excludes non-cash transactions such as the provision of perquisites or other payments in kind.

Medicaid - An assistance program that provides Medical services for certain needy and medically indigent persons. Persons eligible include those who qualify to receive a money payment under the public assistance program and others who meet certain income constraints but do not qualify or elect to receive financial assistance for living expenses.

Medicare - A federal hospital and medical insurance protection plan enacted in 1965 under the Social Security program. The program was designed to cover persons over 65 and has been expanded to include persons under 65 who have been entitled to disability checks for 2 or more consecutive years and persons with permanent kidney failure who need dialysis or kidney transplants.

Public Assistance - Aid provided to the needy, aged, blind, disabled and families of dependent children under federal and state programs.

Public Welfare - Support of and assistance to needy persons contingent upon their need. Includes Intergovernmental Expenditure for locally administered welfare programs, and to the federal government to offset direct federal categorical payments for supplemental programs funded by most states. Direct expenditure under this heading includes cash assistance, comprising direct payments to welfare recipients under supplementary security income programs administered by several states under any other state-operated welfare program; segregable payments directly to private vendors for medical care, burials, and other commodities and services provided under welfare programs for needy (including all direct vendor payments under medical assistance programs); and expenditure for state administration of public welfare

programs, including the provision and operation of welfare institutions. Health and hospital services provided directly by the state, and payments to local governments for such purposes, are reported under other functional headings rather than here. Benefits not contingent upon need, such as bonuses and other aids to veterans as a class, also fall outside the public welfare classification.

School Lunch Program - Provides financial assistance to public and nonprofit private schools of high school grade and under, with tuitions of $1,500 or less, in operating nonprofit lunch programs.

Social Security Program - A U.S. government program designed to provide continuing income when the individual or family earnings are reduced or stopped because of retirement, disability or death. The program was established in 1935 covering only the worker at retirement but has been gradually extended to include provisions for old age and survivors insurance, contributions to state unemployment insurance, and old age assistance.

Special Supplemental Food Program - Known informally as "WIC" (for Women, Infants and Children), this program provides specified nutritious food supplements and nutrition education to pregnant women and mothers of young children determined to be health risks because of inadequate nutrition and low income. Program participants receive vouchers which they redeem at participating grocery stores to receive the WIC foods.

EDUCATION

Average Daily Attendance - The aggregate days attendance of a given school during a reporting period divided by the number of days school is in session during this period. Only days on which the pupils are under the guidance and direction of teachers should be considered as days in session. The average daily attendance for groups of schools having varying lengths of terms is the sum of the average daily attendance obtained for the individual schools.

Average Daily Membership - The aggregate membership of a school during a reporting period divided by the number of days school is in session during this period. Only days on which pupils are under the guidance and direction of teachers should be considered as days in session. The average daily membership for groups of schools having varying lengths of terms is the sum of the average daily memberships obtained for the individual schools.

Capital Outlay - See Glossary: Government.

Compensatory Education for the Disadvantaged - Provides assistance to state and local school administrative units to meet the needs of educationally deprived children.

Current Expenditures - Any expenditure except for capital outlay and debt service. Current expense includes total charges incurred, whether paid or unpaid.

Enrollment - A cumulative count of the number of different pupils registered during the entire school year. New entrants are added, but those leaving are not subtracted.

Fall Enrollment - The count of the pupils registered in the fall of the school year, usually October.

Fiscal Year - See Glossary: Government.

Full-Time Equivalent - Derived by dividing the amount of time employed by the time required in that corresponding full-time position.

Handicapped Children - Number of children served under Chapter 1 of ECIA and EHA-B during the school year. Handicapping conditions include learning disabilities, speech impairments, mental retardation, emotional disturbances, hard of hearing and deaf, multihandicapped, orthopedically impaired, other health impaired, visually handicapped and deaf-blind. ECIA stands for Education Consolidation and Impairment Act and EHA stands for Education of the Handicapped Act. The ECIA Chapter 1 Handicapped program assists handicapped children in achieving their full educational potential by providing supplementary educational services to local educational agencies in the form of additional teachers, physical and occupational therapists, speech/language clinicians, instructional assistants, materials, supplies and speech equipment. The EHA, Title VI B program has as its purpose the improvement and expansion of programs for handicapped children as required by Public Law 94-142.

Impact Aid - Funds transferred by the U.S. Department of Education to compensate communities for the burden imposed on local school systems by the presence of federal installations or activities. Specifically, funds are transferred whenever children whose parents live on or work on federal property (eg., military installations and national parks) attend school in a given school district.

Instructional Staff - Number of positions, not the number of different individuals occupying the positions during the school year. In local schools includes all public elementary and secondary (junior and senior high) day-school positions (or full-time equivalents) that are in the nature of teaching or in the improvement of the teaching-learning situation. Includes consultants or supervisors of instruction, principals, teachers, guidance personnel, librarians, psychological personnel, and other instructional staff. Excludes attendance personnel, clerical personnel, and junior college staff.

Noninstructional Staff - In local schools includes administrative and clerical personnel; plant operation and maintenance employees; bus drivers; lunchroom, health, and recreational personnel engaged by school systems. In institutions of higher education includes cafeteria workers, clerical and custodial workers in colleges and universities, hospitals, agricultural experiment stations, and farms.

Obligations (Federal) for Research and Development - Obligations represent the amounts for orders placed, contracts awarded, services received, and similar transactions during a given period, regardless of when the funds were appropriated and when future payment of money is required.

Research and Development - Includes all direct, incidental, or related costs resulting from, or necessary to, performance of research and development. Excludes routine product testing, quality control, mapping and surveys, collection of of general-purpose statistics, experimental production, and the training of scientific personnel.

Revenue Receipts - Additions to assets that do not incur an obligation that must be met at some future date and do not represent exchanges of property for money. Assets must be available for expenditures.

School-Age Population - Population age 5 through 17, inclusive (excluding armed forces abroad).

Universities and Colleges - Institutions engaged primarily in providing resident and/or accredited instruction for at least a 2-year program above the secondary school level. Included are colleges of liberal arts; schools of arts and sciences; professional schools, as in engineering and medicine, including affiliated hospitals and associated research institutes; and agricultural experiment stations.

LAW ENFORCEMENT, COURTS AND CORRECTIONS

Aggravated Assault - Includes assault with intent to kill.

Burglary - Includes any unlawful entry to commit a felony or a theft and includes attempted burglary and burglary followed by larceny.

Fiscal Year - See Glossary: Government.

Forcible Rape - Includes forcible rapes and attempts.

General Expenditure - See Glossary: Government.

Larceny - Includes theft of property or articles of value without use of force and violence or fraud and excludes embezzlement, "con games", forgery, etc..

Motor Vehicle Theft - Includes all cases where vehicles are driven away and abandoned, but excludes vehicles taken for temporary use and returned by the taker.

Murder - Includes nonnegligent manslaughter, based on police investigations, as opposed to the determination of a medial examiner or judicial body, includes willful felonious homicides, and excludes attempts and assaults to kill, suicides, accidental deaths, justifiable homicides, and deaths caused by negligence.

Parole - Release from prison before completion of sentence by the Parole Commission; subject to specified conditions, usually including supervision by an appointed authority; subject to revocation and imprisonment if the conditions are breached.

Police Protection - Preservation of law and order and traffic safety. Includes crime prevention activities, detention and custody of persons awaiting trial, highway patrols, and the like.

Probation - Permission by the trial judge, upon suspension of an active prison sentence, to go at large, subject to specific conditions imposed, usually including supervision by an appointed authority; subject to revocation and the activation of the suspended sentence if the conditions are breached.

Property Crime - Burglary, larceny-theft, and motor vehicle theft.

Robbery - Includes stealing or taking anything of value by force or violence or threat of force or violence and includes attempted robbery.

Total Crime Index - The sum of murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft offenses known to the police per 100,000 population.

Violent Crime - Murder, forcible rape, robbery, and aggravated assault

ENVIRONMENT, RECREATION AND RESOURCES

Cropland - Land used for all row crops, close-grown field crops, rotation hay and pasture, hayland, conservation use only (excluding forest land), temporarily idle, orchards, vineyards, bush fruit, and open land formerly cropped.

Erosion - Wearing away of the land surface by raindrop splash, flowing water, wind, or gravitational creep.

Federal Land - Excludes federally-owned cropland operated under lease or permit.

Fiscal Year - See Glossary: Government.

Forest Land - Land which is at least 10 percent stocked by forest trees of any size or formerly having had at least 10 percent stocking and not currently developed for a non-forest use and which is:

(a) Producing, or capable of producing, crops of industrial wood. Includes both accessible and inaccessible areas and cutover areas on which timber species have not been reestablished and which have not been developed for non-forest use at the time of inspection.
(b) Not withdrawn from timber use by statute or administrative regulation.
(c) Suitable for management to grow crops of industrial wood.
(d) Capable of producing at least 20 cubic feet of industrial wood per acre per year (timber species may not have been on area at time of inventory).

Land Area, Total - Includes dry land area and water area. Dry land is measured in square miles and square kilometers. Water area includes permanent inland water surface, such as lakes, reservoirs, and ponds having an area of 40 acres or more; streams, sloughs, estuaries, and canals one-eighth statute mile or more in width; deeply indented embayments and sounds, and other coastal waters behind or sheltered by headlands or islands separated by less than one nautical mile of water, and islands under 40 acres in area. Excludes areas of oceans, bays, sounds, etc., lying within U.S. jurisdiction but not defined as inland water.

Lumber Production - Total quantity for each type of species of lumber, sawed ties, and timbers, in thousand board feet for the species indicated. Materials sawed from bolts less than 6 feet long or materials sawed from slabs, edging, etc. are not included.

Nonfederal land - Consists of rural land and urban and built-up land. It is the acreage remaining after federal land and water have been deducted from the total surface area.

Pastureland - Lands producing forage plants, principally introduced species, for animal consumption. The land may contain shade or timber trees if the canopy is less than 10 percent, but the principal plant cover is such as to identify its use as permanent grazing land.

Rangeland - Land on which the potential natural plant community is predominantly grasses, grasslike plants, forbs, or shrubs suitable for grazing and browsing. Includes natural grasslands, savannas, many wetlands, some deserts, and tundra.

Urban and Builtup Land - Nonfederal land consisting of residential, industrial, commercial and institutional land; construction sites; public administrative sites; railroad yards; cemetaries; airports; golf courses; sanitary landfills; sewage treatment plants; water control structures and spillways; small parks within urban and built-up areas, and highways, railroads, and other transportation facilities surrounded by urban areas.

Urban Land - Estimated area in urbanized areas and places of 2,500 or more population outside urbanized areas.

ENERGY AND UTILITIES

BTU (British Thermal Unit) - The amount of heat necessary to raise the temperature of one pound of water one degree Fahrenheit.

Commercial End-Use - Includes wholesale and retail trade; finance, insurance and real estate; services; and public administration. End uses included (in commercial buildings) are space heating and cooling, lighting, cooking, refrigeration, and other appliances.

Industrial End-Use - Includes mining, construction, and manufacturing. End uses included are space heating and cooling, lighting, chemical feedstock, and industrial generation of electricity.

Residential End-Use - Includes all private households. End uses included are space heating and cooling, water heating, cooking, lighting, clothes drying, refrigeration and other appliances.

GOVERNMENT

Budget Stabilization Fund - Funds which are reserved by a state for cash flow reasons, emergencies, and/or unanticipated short falls in revenue.

Capital Outlay - Direct expenditure for contract or force account construction of buildings, roads, and other improvements, and for purchase of equipment, land, and existing structures. Includes amounts for additions, replacements, and major alterations to fixed works and

structures. However, expenditure for repairs to such works and structures is classified as current operation expenditure.

Compensatory Education for Disadvantaged - This program, a grant to state and local governments administered by the U.S. Department of Education, attempts to ensure that children who are disadvantaged because of low family income are provided special programs related to educational handicaps. Dollar amounts represent actual expenditures.

Debt - All long-term credit obligations of the state and its agencies whether backed by the state's full faith and credit or nonguaranteed, and all interest-bearing short-term credit obligations. Includes judgements, mortgages, and revenue bonds, as well as general obligation bonds, notes, and interest-bearing warrants. Excludes noninterest-bearing short-term obligations, interfund obligations (other than formal debt instruments of the state held by its funds as investments), amounts owed in a trust or agency capacity, advances and contingent loans from other governments, and rights of individuals to benefits from state social insurance funds.

Debt Outstanding - All debt obligations remaining unpaid on the date specified.

Direct Expenditure - Payments to employees, suppliers, contractors, beneficiaries, and other final recipients of government payments-i.e., all expenditure other than Intergovernmental expenditure.

Direct Payments To Individuals - Transfers of funds directly to individuals from the federal government include, but are not limited to, payments from social security, medicare, federal retirement/disability, veterans disability/pensions/educational assistance, food stamps, supplemental security income , railroad retirement, national guaranteed student loan interest subsidies, federal unemployment compensation and more. Federal government expenditures are also categorized as grants, salaries and wages, procurement, loan & insurance programs and "other".

Expenditure - All amounts of money paid out by a government-net of recoveries and other correcting transactions-other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Note that expenditure includes only external transactions of a government and excludes non-cash transactions such as the provision of perquisites or other payments in kind.

Fiscal Year - The 12-month period at the end of which the government determines its financial condition and the results of its operations and closes its books. Financial data pertain to state fiscal years which end on June 30 for all but 4 states. Amounts shown for the 4 states reflect the different timing of their respective fiscal years, which were the 12 month period ending in 1987 on March 31 for New York, August 31 for Texas, and September 30 for Alabama and Michigan, and for D.C. and the federal government.

General Expenditure - All state expenditure other than the specifically enumerated kinds of expenditure classified as Liquor Stores Expenditure, Insurance Trust Expenditure, and Utility Expenditure.

General Fund - All financial resources received and used for services traditionally provided by a state government and not required to be accounted for in other funds are accounted for in the general fund. These services generally include general government; public safety and regulation; education (other than institutions of higher education); health, welfare and rehabilitation; resource development and preservation; and agriculture.

General Government Revenue/Expenditure - All revenue/expenditure activities defined as utility, liquor store, and insurance trust transactions.

General Local Government Support - Amounts distributed to local governments without restriction of function or purpose to which applicable.

General Revenue - All state revenue except Liquor Stores Revenue, Insurance Trust Revenue, and Utility Revenue. The basis for distinction is not the fund or administrative unit receiving particular amounts, but rather the nature of the revenue sources concerned.

General Revenue Sharing - Funds distributed to states by the federal government under the State and Local Fiscal Assistance Act of 1972.

General Sales/Gross Receipt Taxes - (See also Sales and Gross Receipt Taxes). Sales or gross receipt taxes which are applicable with only specified exceptions to all types of goods and services on all gross income, whether at a single rate or at classified rates.

Individual Income Taxes - Taxes on individuals measured by net income and taxes distinctively imposed on special types of income (e.g., interest, dividends, and income from intangibles). Taxes measured by income from intangible property are reported here even though locally designated as "property" taxes.

Local Governments - Included in this category are counties, municipalities, townships, school districts, and special districts provided they function as governmental units.

Long-Term Debt - Debt payable more than 1 year after date of issue.

Property Taxes - Taxes conditioned on ownership of property and measured by its value. Includes both general property taxes (i.e., relating to property as a whole, real and personal, tangible or intangible, whether taxed at a single rate or at classified rates), and special property taxes (i.e., on selected types of property, such as motor vehicles or certain or all intangibles, subject to rates that are not directly related to rates applying for general property taxation).

Public Welfare - Support of and assistance to needy persons contingent upon their need. Includes Intergovernmental Expenditure for locally administered welfare programs, and to the federal government to offset direct federal categorical payments for supplemental programs funded by most states. Direct expenditure under this heading includes CASH ASSISTANCE, comprising direct payments to welfare recipients under supplementary security income programs administered by several states under any other state-operated welfare program; segregable payments directly to private vendors for medical care, burials, and other commodities and services provided under welfare programs for needy (including all direct vendor payments under

medical assistance programs); and expenditure for state administration of public welfare programs, including the provision and operation of welfare institutions. Health and hospital services provided directly by the state, and payments to local governments for such purposes, are reported under other functional headings rather than here. Benefits not contingent upon need, such as bonuses and other aids to veterans as a class, also fall outside the public welfare classification.

Revenue - Actual receipts (net of recoveries and correcting transactions) of a government and its agencies including government-operated enterprises, utilities, and public trust fund.

Sales and Gross Receipts Taxes - Taxes, including "licenses" at more than nominal rates, based upon the volume or value of transfers of goods or services, upon gross receipts or gross income, and related taxes based upon use, storage, production, importation, or consumption of goods. Dealer discounts or "commissions" allowed to merchants for collection of taxes from consumers are excluded. Comprises general sales or gross receipts taxes and selective sales and gross receipts taxes.

Selective Sales and Gross Receipts Taxes - (See also Sales and Gross Receipts Taxes). Sales and gross receipt taxes imposed on sales of particular commodities or services or gross receipts of particular businesses, separately and apart from the application of general sales and gross receipt taxes. Specific taxes on items such as alcoholic beverages is an example.

Tax Burden for Grants - Estimates by the Tax Foundation, based on a special formula that measures the final geographic burden of taxes, as distinguished from the area of initial tax impact (the state from which the taxes are collected).

Tax Capacity Index - The amount of revenue each state would raise if it applied a national average set of tax rates to 26 commonly used tax bases. The index is the per capita tax capacity divided by the per capita average for all states, with the index for the average set at 100.

Tax Revenue - Reported in terms of gross collections minus tax refunds during the same period.

Urban Development Action Grants - This program, authorized under the Housing and Community Development Act of 1974, is designed to encourage new and increased private investment in cities and urban counties which are experiencing severe economic distress.

EMPLOYMENT AND INCOME

Children - Individuals less than 18 years of age. Related children are those related to the householder by blood, marriage, or adoption.

Civilian Labor Force - All resident civilians in the noninstitutional population 16 years of age and over classified as employed or unemployed. In addition to the resident military, the civilian labor force mainly excludes students, housewives, retired workers, seasonal workers in "off" season, inmates of institutions, disabled persons not seeking work, and persons doing unpaid family work.

Direct Payments to Individuals - See Glossary: Government.

Disposable Personal Income - Represents the income available for spending and saving and is the equivalent of personal income less personal tax and nontax payments to government entities.

Employed - Includes all civilian residents 16 years and older who (a) did any work for pay or profit (minimum of an hour's work) or worked as unpaid workers in a family enterprise during the reference week; or (b) were not working but had jobs or businesses from which they were temporarily absent for noneconomic reasons (illness, weather conditions, vacation, labor-management disputes, etc.)

Expenditure - See Glossary: Government.

Fiscal Year - See Glossary: Government.

Insured Employment - Includes those employed by firms subject to state unemployment insurance laws. Excludes most agricultural workers, all Armed Forces, elected officials in most states, railroad employees, most domestic workers, employees of certain nonprofit organizations and most self-employed individuals. Represents about 90 percent of total civilian employment.

Labor Force - In addition to the civilian employed and unemployed, the labor force includes the Armed Forces stationed in the U.S.

Labor Force Participation Rate - The percent of a noninstitutional population group participating (employed or unemployed) in the civilian labor force. It is prepared for various age groups, but generally represents the civilian noninstitutional population age 16 years and older in a given sex or racial group.

Money Income - Includes wage and salary income, net nonfarm self-employment income, net farm self-employment income, Social Security and railroad retirement income, public assistance cash payments, and all other money income received before deductions for personal income taxes, Medicare deductions, etc. Expressed in per capita terms by dividing aggregate money income of all persons by the total population count.

Personal Income - The income received by or on behalf of all residents of the area from all sources: that is, from participation in production, from transfer payments, from government and businesses, and from government interest. "Residents" include individuals, nonprofit institutions, private non-insured welfare funds, and private trust funds. Personal income is the sum of wage and salary disbursements, other labor income, proprietors' income, (with inventory valuation and capital consumption adjustment), income of persons (with capital consumption adjustment), personal dividend income, personal interest income, and transfer payments less personal contributions for social insurance.

Poverty Level - A person or family is classified as above or below the poverty income level according to a definition of poverty originated by the Social Security Administration in 1964. At the core of this definition is a nutritionally adequate food plan ("economy plan") designed by the Department of Agriculture for "emergency or temporary use when funds are low". This index provides a range of income cutoffs or "poverty thresholds" specific to family size, age of the family head, and the number of children under 18 years of age. These thresholds are

revised annually to allow for changes in the Consumer Price Index. No adjustment is made for variations in the cost-of-living at the local level.

Unemployed - Comprised of all who had no employment during the reference week, made specific efforts to find a job within the previous four weeks, and were available for work during that week. Persons on layoff from a job or waiting to report to a new job within 30 days are included if they are available for work.

Unemployment Rate - The percent of the total civilian labor force classified as unemployed.

Unrelated Individuals - An individual who is (1) living alone or only with persons not related to him or her; (2) a roomer, boarder, partner, roommate, or resident employee unrelated to him or her; or (3) a group quarters member who is not an inmate of an institution.

BUSINESS AND INDUSTRY

Business Failures - Businesses that ceased operations following assignment or bankruptcy; ceased operations with losses to creditors after such actions as foreclosure or attachment; voluntarily withdrew leaving unpaid debts; were involved in court actions such as receivership, reorganization or arrangement; or voluntarily compromised with creditors. Business failures do not represent total business closings, which consist of both business failures and business discontinuances. If creditors are paid in full the event is classified as discontinuance, not failure.

Business Starts - Consists of newly opened active establishments (but a new entry to Dunn and Bradstreet's commercial credit information database is also counted if it reported a birth date within the past 36 months). It does not include changes in ownership of previously operating businesses or changes in the business name, location, legal type or mergers.

C.I.F. Values - Includes customs value, insurance, freight and other charges (excluding duties). Customs import value is the price actually paid or payable for merchandise when sold for exportation to the U.S. (excluding duties, freight, and other charges).

Direct Loans, Small Business - The U.S. Small Business Administration provides direct loans, in addition to guaranteed and immediate participation loans, to small business concerns to help them finance plant construction, conversion, or expansion; acquire equipment, facilities, machinery, supplies, or materials; and secure working capital.

Economic Development Administration (EDA) Grants - These federal grants are intended to address long-range economic development of areas with severe unemployment and low family income problems. It aids in the development of public facilities and private enterprise to help create new, permanent jobs.

F.A.S. Values - Value (free alongside ship) at the U.S. port of export, based on the transaction price including inland freight, insurance and other charges incurred in placing the merchandise alongside the carrier at the U.S. port of exportation.

Fiscal Year - See Glossary: Government.

Gross State Product - The gross market value of the goods and services attributable to labor and property located in a state. It is the state counterpart of the nation's gross domestic product and is composed of: (1) employee compensation; (2) proprietors' income with inventory valuation adjustment and capital consumption allowances; (3) indirect business tax and nontax liability; and (4) other charges, mainly capital-related.

Guaranteed Loans, Small Business - The U.S. Small Business Administration provides guaranteed loans, in addition to direct and immediate participation loans, to small business concerns to help them finance plant construction, conversion, or expansion; acquire equipment, facilities, machinery, supplies, or materials; and can also provide working capital. ***NECESSARY***

Life Insurance In Force - The sum of the face amounts, plus dividend additions, of life insurance policies outstanding at a given time. Additional amounts payable under accidental death or other special provisions are not included.

U.S. Affiliate of Foreign Company - A U.S. business enterprise in which a single foreign person owns or controls (directly or indirectly) 10 percent or more of an incorporated business's voting securities, or the equivalent of an unincorporated business enterprise.

Value Added by Manufacture - Derived by: (1) subtracting the cost of materials, supplies, containers, fuel, purchased electricity, and contract work from the value of shipments for products manufactured plus receipts for services rendered; and (2) adjusted with the addition of value added by merchandising operations plus the net change in finished goods and work-in-process inventories between the beginning and end of the year.

Value of Shipments - The received or receivable net selling values, free on board (f.o.b.) plant, after discounts and allowances and excluding freight charges and excise taxes. However, where the products of an industry are customarily delivered by the manufacturing establishments (i.e., bakery products, fluid milk, and soft drinks), the value of shipments is based on the delivered price of the goods rather than the f.o.b. plant price.

AGRICULTURE

Farm Assets - Property owned by farm operators and estimated at current market value.

Farm Debt - Financial obligations of farm operators.

Farm Population - Persons residing on farms in rural areas.

Farms - The current definition of farm was announced on August 12, 1974. It defines a farm, for statistical purposes, as any place from which $1,000 or more of agricultural products were sold or normally would have been sold during the census year.

Government Payments - Government payments made directly to farmers through farm programs.

Gross Farm Income - Comprises cash receipts from farm marketings of crops and livestock, federal government payments made directly to farmers for farm-related activities, rental value of farm homes, value of farm products consumed in farm homes, and other farm-related income such as machine hire and custom work. Farm marketings represent agricultural products sold by farmers multiplied by prices received per unit of production at the local market.

Net Farm Income - The difference of total gross farm income and total production expenses for all farm operators, modified to reflect current production through a change-in-inventory adjustment and to exclude the income of corporate farms and salaries paid to corporate officers.

TRANSPORTATION

Domestic Travel Expenditures - Represents U.S. spending on domestic overnight trips and day trips of 100 miles or more away from home. Excludes spending by foreign visitors and by U.S. residents in U.S. territories and abroad.

Expenditure - See Glossary: Government.

Federal Aid Primary Highway Mileage - A network of main roads important to interstate, statewide, and regional travel. The system consists of main rural roads and their extensions into or through urban areas. Eligible for federal-aid, these segments of state and local systems were selected by state and local governments, subject to the approval of the Federal Highway Administration. Federal law provides that federal funds be matched in varying proportions with state funds for the costs of planning, engineering, right-of-way acquisition, and construction of highways.

Federal Aid Secondary Highway Mileage - Consists of rural roads of a more local nature, such as those which connect county seats and the larger population centers not served by the primary system. Eligible for federal-aid, these segments of state and local systems were selected by state and local governments, subject to the approval of the Federal Highway Administration. Federal law provides that federal funds be matched in varying proportions with state funds for the costs of planning, engineering, right-of-way acquisition, and construction of highways.

Fiscal Year - See Glossary: Government.

General Expenditure - See Glossary: Government.

Highways - Streets, highways, and structures necessary for their use, snow and ice removal, toll highway and bridge facilities, and ferries. Includes support of or reimbursement for street and highway activities of local governments, including aid to local governments for debt service on local highway debt.

Motor Fuel Sales Taxes - Selective sales and gross receipts taxes on gasoline, diesel oil, and other fuels used in motor vehicles, including air craft.

Motor Vehicle Traffic Accident Fatalities - Includes victims of motor vehicle traffic accidents who died within 30 days of their accident.
